Work History

2018-04 -
Current

MTS - Application Development

MetricStream InfoTech (India) Pvt Ltd., Bangalore, Karnataka

- Implemented **Accessibility** for the MetricStream application using technologies like **BackBone JS, JavaScript, HTML5, CSS, LESS** and thus enabling the company to achieve WCAG level AA & section 508 certification
- Worked on Cross-Reference feature to enable MS-Word Integration with MetricStream platform. Used **ArangoDB** to store references and developed **word add-in** for integration.
- Received appreciation for Implementing Organization Restructure Framework using **Core Java**, which had been committed to a lot of major customers.
- Worked on a POC to integrate MS-Office with MetricStream application for cross-referencing documents. Productization of the same is underway.
- Utilized **PL/SQL, Javascript** and **Java** to develop many product features such as Multi-Dimensional Organization Structure, Multi-char Validation in Forms, Tree Grid visualization implementation, etc.
- Made changes to existing code base to fix bugs, performance tuning and also User Experience Upgrade. Was also awarded with quarterly award for resolving 48 bugs in 4 days time.
- Handled QA issues with quick turnaround time and also helped customer support team to resolve customer facing issues.
- As a mentor, gave training sessions about the product and development.
